- Powder coated underside and receiver hitch insert
- Perimeter holes for tie downs
- Includes mounting holes for license plate

Versa-Mount Trailer Mounting Kit

Attach our **trailer mounting kit** to any trailer and you'll have the best of both worlds. Use your Versa-Step on your vehicle, then move it to your trailer when towing. It's

mountable just about anywhere on your trailer and adds a convenient step when loading/launching a boat, a spare tire carrier and a movable trailer jack wheel that can double as a jack for tire changing.

**You Can
Haul it All!**
